

Think You've Got Style?

Fashion is more than following trends blindly. It is an expression of individuality. GeThat susses out those who possess a style that's all their own.

Why the outfit? I have chosen this outfit because it can give me many different looks from one particular dress. I attended a ball that stated the dress code "Dress in Mink" and therefore I pair this unique cape from Fendi with it. As you can see, it is very well cut, and of good quality with exquisite tailoring that accentuates my assets. *What is your style?* I am a very versatile dresser. I like to dress based on my mood of the day. I am very experimental and a bold dresser. Not afraid to try anything new.
