

## CLOTHES ON TRACK

THIS IS THE one occasion where the discerning dresser has to think hard about his wardrobe—whether it's packed in a Louis Vuitton suitcase or plucked from his spacious walk-in robe.

With temperatures likely to hover around 27.8°C, sun block, aviators or sunglasses, comfortable walking shoes and the obligatory earplugs are a necessity, along with binoculars and a camera.

As most men look to a lady for fashion advice, we've asked celebrity stylist, Karen Ng, style ambassador for Mumm (the official F1 champagne), for her help in making style suggestions for the many facets of the weekend's activities. She says accessories should include a chic baseball cap; a statement buckled belt; a standout, big-faced, fashionable watch; good quality shoes—sneakers, loafers and lace up oxfords; rings and, of course, a sleek hairstyle.

As she says, "It's very important to be creative, adventurous and experimental with fashion. Remember an ounce of image is worth a ton of performance!"
